

Annual Statistics
2006

European Federation of Corrugated Board Manufacturers

Annual Statistics 2006

The following tables represent the statistical data, collected by FEFCO via the National Associations, over a period of 10 years.

The Analysis of the European historical data should take the following into account :

- Statistics from Poland and Romania are included starting from 1997.
- Until 2001, figures for Czech and Slovak Republics were grouped. Starting from Year 2002 the figures are separated.
- Year 2003, The Belgian Data are not complete. The input of one plant is missing.
- Europe data :
 - Totals : sum of the data of the different countries
 - W.ave : weighted average (taking into account the difference of volumes of the different countries)
- Year 2005 : Germany made a 10 years retro- active revision of the figures. Data of Production volumes in Mm² & in Tonnes , Consumption of Raw materials were changed.
- Year 2005 : Croatia is included in the Annual Statistics for the first time.
- Ukraine: Total Market volume has been reported as 593,7 Mm² or 329,2 Thousands of Tonnes for 2005. The Ukrainian Association is in the process of joining FEFCO. Updated figures were not received so far for 2006
- Greece reported 260.000 tonnes of shipments approx. 484 Mm² in 2006.

The statistics are constantly being updated and reviewed.
The accuracy of the figures depends on the input obtained from the National Associations.

These statistics replace all previous releases.
